## **H2020/WP2014 – 2015 Preparation**

- Four (4) Shadow Committee meetings took place, with the participation of Greek NR.
- Draft WP2014-2015 has been coordinated with Greek “Secure Societies” stakeholders, for commenting.
- Approximately twenty five (25) proposals for WP2014-2015 modification have been prepared (from changes to keywords to addition of paragraphs) and submitted to EC, together with appropriate justification.
- Greek proposals have been largely adopted by EC (>80%).
- Additional (minor) changes could be inserted to the WP2014-2015, before launching of the second call (March 2015)

## Ensuring smooth transition between FP7 Security & H2020/Secure Societies activities in maritime surveillance

Consideration of running FP7 projects: PERSEUS (HMOD, HCG, NCSR "Demokritos", KEMEA) – Large scale exercise to be organized in the Aegean Sea, September – October 2014.

Expected FP7 projects to start in 2014 (Pre-operational Validation of Common Information Sharing Environment – POV CISE) – Greek participation with "Hellenic Cluster" (HMOD, HCG, NCSR "Demokritos")

Inclusion of specific requirement within BES topics of H2020/Secure Societies, for seamless cooperation with CISE developed infrastructure, software and methodologies.

### Efforts for further inclusion of “Dual-Use”, “Civ/Mil synergies” & “CSDP” Keywords within H2020/Secure Societies WP

- National defence industrial basis is constantly shrinking, together with defence funding. This is a major problem, especially for Greek SMEs.
- “Security” is an area where previous, defence-related, expertise could be exploited, for the development of “dual-use” applications.
- On a national basis, civ/mil synergies take place every day (land/sea border surveillance, “Xenocrates” civil protection plan, cyber-security, aerial fire-fighting etc.)
- European Council (Brussels, 19-20/12/2013) will put the frame for EU CSDP within coming years. Main guidelines can be found in the corresponding EC Communication *“Towards a more competitive and efficient defence and security sector”*, 24/7/2013.

Brussels, 24.7.2013  
COM(2013) 542 final

### Main effort for H2020/Secure Societies WP

COMMUNICATION FROM THE COMMISSION TO THE EUROPEAN PARLIAMENT, THE COUNCIL, THE EUROPEAN ECONOMIC AND SOCIAL COMMITTEE AND THE COMMITTEE OF THE REGIONS

Towards a more competitive and efficient defence and security sector

(SWD(2013) 279 final)

### Shifting from

**X Ill-posed question: “How to share money between civil and defence research”?**

**! Right question: “How can we achieve economies of scale, through combined civil & defence research (i.e. dual use applications) and civ/mil synergies, to support the CSDP”?**

### Inter-ministerial approach to the H2020/Secure Societies

- As repeatedly stated during the Shadow Committee Meetings, H2020/Secure Societies has to be “end-user” driven.

- Major end-users in Greece are the Ministries of :
  - Public Order Citizen Protection
  - Shipping and the Aegean
  - National Defence

- Contacts with all stakeholders have been performed in order to coordinate, for the better exploitation of H2020 / Secure Societies offered opportunities.

- Official suggestion for the formation of a H2020/Secure Societies National Coordination Board has been prepared and submitted to the competent ministerial authorities.
